Firearm Purchase Permit Applicant Instructions

Nebraska has developed an alternative background check system for the purchase of handguns. The Nebraska system requires a prospective purchaser to first apply for and receive a handgun purchase certificate from the local Chief of Police or Sheriff. The issuing law enforcement agency has three days to determine whether the applicant is prohibited under federal, state, or local law from purchasing or possessing a handgun. Handgun certificates are good for three years from the date of issuance and allow the holder to purchase any number of handguns during this period, provided the holder continues to meet the legal requirements to purchase and possess handguns.

1. There is a \$5.00 non-refundable application fee due when application is submitted.
2. Applicants must be 21 years of age or older and possess a government issued identification containing their current address.
3. Disclosure of your social security number is voluntary, but may assist in promptly completing your background check.
4. If the firearm purchase permit is lost, the owner shall make a written request to the issuing agency for a duplicate permit. This document must be notarized.
5. Duplicate permits may also be issued for a change of address within 30 months of initial issuance. The fee for all duplicate permits is \$1.00.
6. Fill out all fields on application completely.

If needed, list additional address within the past five years below:
