Are you willing to pay more for refuse services (i.e. trash pickup and disposal) in order to have access to recycling services	How much are you willing to pay each month to have recycling services available to you?	What would make you more likely to pay for recycling?
NO	\$0-\$2	0
NO		\$2-\$5 - If recycling bins stay as drop off
		\$5-\$10 - If recycling bins were located in my neighborhood, and I have daily access to recycling and do not have to transport common recycling materials in my car to a recycling center. I already pay KAB for annual pick-up services, and I like this convenience. I do not enjoy having to drive to the recycling bins. Every time I do drive to the bins they are full, especially cardboard. I go once, per month after hours.
YES	\$2-\$5	
YES	\$2-\$5	Put a glass recycling bin by the other bins in the alley. Take a good look at your alleys, since we moved here there have been 3 houses added to the other side of the alley. There has not been an increase in trash receptacles. The last family that moved out ruined the lids on the trash container. Time to fix things!

YES	\$0-\$2	
No		0 I would like to recycle, and would be willing to go out of my way for it, but we already pay too much for utilities. Not needing to sort it, not needing to deal with hauling a dumpster to the curb - a dumpster in the alley would be fantastic!

NO		0 town doing my shopping - where I can recycle at no charge. No brainer!!
YES	\$2-\$5	If KAB do not get their grant funding

NO	\$0-\$2	If the services were in containers in the alley next to our trash container -- now the recycling is very inconvenient-- muddy, containers filled, etc.
YES	\$5-\$10	They do a great job!
YES	\$2-\$5	
YES	\$0-\$2	
NO		0 I think we already pay too much for the city's "services". I already recycle. I just take it to Scottsbluff and they pay me.
NO	\$0-\$2	Nothing

NO		\$0 Nothing
YES	\$0-\$2	
NO		We are on a fixed income. Our water, electrical refuse and sewer bill is already high. We can not afford anymore! The city
NO		\$0 should do recycling anyway to reduce landfill getting full.
YES	\$0-\$2	0
YES	\$5-\$10	Actually having a recycle bin placed in my neighborhood.
YES	\$5-\$10	\$7.50 and city personal not being used to process recycle. Start putting money into our infrastructure! Fix broken cement on streets. Clean storm sewers, have city maintenance survey and fix said structures.
NO		\$0
YES	\$0-\$2	0
NO		\$0
NO		Curbside pickup monthly or bins to put plastic, paper & grass in although I use the recycling trailer bins to put ours in now which is fine. Recycling is important to me
YES	\$0-\$2	0
YES	\$5-\$10	
NO		\$0 Nothing
YES	\$10-\$20	Keep KAB on staff! These people need the jobs and most are retirement age. If that's possible, we need to do it. They do a good job! Its good not to have recycling going in this area and not just stuffing things into the landfill.
NO		0
NO		\$0 Nothing
NO		0
YES	\$2-\$5	
NO	\$0-\$2	I can't think of a good reason to do that
NO		\$0
YES	\$5-\$10	
YES	\$2-\$5	If a recycle can is supplied & picked up, bi-weekly, at a minimum. Costs must also be low as I already take recycle down myself. Worth the convenience of not doing it myself.
YES	\$5-\$10	I currently pay for recycling with Keep Alliance Beautiful. I'm not certain if this would involve them as well or is this a different program entirely?
NO	\$0-\$2	Nothing

YES	\$2-\$5	Being able to keep the recycling program. It would be tragic to lose the program and have to start throwing all the recyclable material away.
NO		0 I recycle plastic jugs and bottles, newspapers. When I get a bunch I take them to recycle location
NO		\$0 Nothing we're on a fixed income and we can't afford what we have now.
NO		\$0 A reduction in my bill.
NO		0 I think we should have recycling dumpsters like other city have and they don't charge for them.

YES	\$2-\$5	Convenience of the city picking up recycling.
YES	\$2-\$5	Ease of use

YES	\$5-\$10	No sorting required for recycled materials
YES	\$2-\$5	Having a big container that didn't need to be separate items.
NO		\$0 Nothing
NO		0 None, on fixed income. Nothing I'm poor
YES	\$2-\$5	
YES	\$10-\$20	
YES	\$5-\$10	It would be wonderful if they pick up at the house, but I don't think that will happen. Way too expensive! We need to keep our recycling center. I would be willing to pay an extra \$10 to keep our recycling center.
		If the city keeps the money "only" for recycling center. Maybe the city should cut some money from the APD. They don't need new patrol cars, as they have plenty to sit around town. After recycling we are amazed how much we're sending to the landfill and we are just 2 people.
YES	\$2-\$5	Take funds from what is already paid! Can't raise bills on those struggling now! Force people to disconnect sooner! People need options! Those that wish to recycle can take to recycle center!
NO		\$0
YES	\$2-\$5	Recycling bins supplied and labeled.
YES	\$2-\$5	Keeping the bins emptied better (weekly)
NO		\$0
NO		\$0 I won't pay

YES	\$2-\$5	Having it picked up
YES	\$2-\$5	Yes
YES	\$2-\$5	If it is picked up at curb
YES	\$2-\$5	Convenience to recycle container locations
		Thank you to everyone who has worked on the recycling program and in the recycling center. And thanks for working hard to keep the program here! \$10 would not be easy to find, but we would try. I think more people would pay if they had factual information such as how much materials stays out of our local landfill and how the recycled materials are used and how much is done in Nebraska (the recycling part) compared to being sent out of state. In addition, I think tours of the plant and an introduction to the staff would make people aware of the jobs and other benefits that recycling brings to alliance.
YES	\$2-\$5	
YES	\$5-\$10	Outside bins for storage of recyclables
YES	\$5-\$10	I have recycled for years and feel it is an important activity to keep all this stuff out of the landfill.
YES	\$5-\$10	
NO	\$0-\$2	Include service at the dump
YES	\$5-\$10	This is important for the city, the environment and delays having to construct new cells at the landfill
YES	\$2-\$5	
YES	\$0-\$2	Easy access to bins and less likely to find them full already
NO		0 You have raised the price at least twice from the original I paid fine years ago. And without notice I might add.

NO		0
NO		\$0 You pay me to recycle
NO		0
YES	\$2-\$5	
NO		\$0
YES	\$0-\$2	Not a penny more. If it was in the alley next to dumpster.

YES	\$0-\$2	
NO		\$0 Nothing
YES	\$2-\$5	
NO	\$2-\$5	Pickup
YES	\$5-\$10	If you would take tires at reasonable price!
NO		0
NO		\$0 Nothing

NO	\$0-\$2	I recycle at my workplace.
YES	\$0-\$2	
NO	\$0-\$2	Nothing - Already on a fixed budget and we don't recycle.
NO	\$0-\$2	I believe we pay enough for our utilities and don't need more fees to pay for this town.
YES	\$0-\$2	Snow Removal
NO		0
NO		0
NO	\$0-\$2	My bill is high enough already
NO	\$0-\$2	Nothing I pay enough
YES	\$2-\$5	
YES	\$10-\$20	No problem paying
YES	\$5-\$10	
NO		0
YES	\$2-\$5	A place where we can drop off recycling materials at least 3 days a week.
NO		\$0 Nothing
NO		\$0 We don't recycle. That what we pay for trash pick up. We are retire on a budget
NO	\$0-\$2	Nothing. I wouldn't pay for recycle.
NO		0 Don't need it. Don't know.
NO		\$0 Nothing. I already recycle
YES	\$2-\$5	
		If we don't have recycling your trash truck is going to have to pickup more trash and landfill is going to fill up much more sooner. So between those 2 its going to cost the city much more money in the long run, with additional trash to pickup and additional trash to landfill
YES	\$2-\$5	
NO		0 No Money
NO		\$0
NO		\$0 Recycling should be profitable with materials obtained
NO	\$0-\$2	Nothing
NO	\$0-\$2	
NO	\$0-\$2	None
NO		0 Nothing
NO	\$0-\$2	
		I would pay an additional \$5.00 per mo. For recycling services at curb or where designated. I am sold on recycling and willing to pay for it; but I wonder how many others can or are willing to do so.
YES	\$2-\$5	
YES	\$5-\$10	Pick up services at residence
NO	\$0-\$2	Minus \$20 for regular refuse service!
NO		\$0 Nothing
YES	\$0-\$2	Yes, if other rates are not increased such as electrical, garbage removal, etc. are not increased.
YES	\$0-\$2	Maybe \$2-\$5 or \$5-\$10. Ease of availability/items that could be recycled/not a forced issue
YES	\$2-\$5	
NO	\$0-\$2	Lower property taxes
NO		\$0 You should not be able to charge for recycling - my choice
YES	\$5-\$10

NO	\$0-\$2	
NO	\$0-\$2	
YES	\$2-\$5	
YES	\$10-\$20	
NO	\$0-\$2	

		It would be convenient for a small fee. If the fee is too high, the program will NOT be supported! I consistently recycle now, so it would be convenient to have a recycle program where it was picked up along with the trash for a small fee. My issue is not taking the recyclables down to the trailers but the emptying of the trailers. The trailers need to be emptied more frequently. They are often overflowing which causes people to leave their recyclables on the ground, causing an eyesore to our city, especially with all our wind!
YES	\$2-\$5	
YES	\$2-\$5	Pickup on site
NO	\$0-\$2	If you want to promote recycling maybe you should redirect some of your TIF money that you use for business tax breaks to fund it rather than making overstretched workers to it.
YES	\$5-10	The simpler it is, the more I'd be willing to spend. Depends on if its in the back alley or if I have to take it somewhere else. If there was a dumpster in the alley and I didn't have to sort the tin cans from the plastic bottles from the cardboard. I unfortunately don't have enough space in my house for more than 2 trash cans.
NO	\$0	If the plan didn't fail each time.
YES	\$2-\$5	Incentives for recycling
YES	\$5-\$10	I pay \$100 annually to KAB
YES	\$5-\$10	Already do with KAB. We currently already utilize the KAB recycling (@home pickup) service for \$100 per year
YES	\$2-\$5	The convenience of having my recycles picked up each week or so. A Senior Service. I love it.
YES	\$2-\$5	We don't have storage space. A bin would be nice to have.
YES	\$5-\$10	If it was picked up every week like KAB has been doing.
YES	\$10-\$20	If I could have a bin that is picked up.
NO	\$0-\$2	
YES	\$5-\$10	Community Responsibility
YES	\$5-\$10	Recycling access that has easier access; at the home on alley access for multiple people
YES	\$2-\$5	
YES	\$2-\$5	More access points or pickup at home
NO	\$0-\$2	We like using KAB
YES	\$0-\$2	pickup
NO	0	
YES	\$0-\$2	I understood the purpose of recycling was to not fill up the landfill as quickly. Been recycling for 30 years.
		I already pay \$19.13 monthly for the unused receptacle in the alley. I have been recycling almost everything of waste, including now the orange bag of other plastics. There is rarely anything that goes to our regular refuse container, yet I pay full bore for it. I believe then that I am already paying for recycling, however, if there should become a fee for making all that to our center, I wish it could fair for those that pay monthly the same for others that do not recycle anything
YES	\$2-\$5	
NO	\$0-\$2	I wouldn't dump mine off at the bins
YES	\$2-\$5	
YES	\$0-\$2	Having it picked up for me.
YES	\$5-\$10	Our annual premium
YES	\$0-\$2	
NO	\$0-\$2	Nothing
NO	\$0	
YES	\$2-\$5	
NO	0	
YES	\$10-\$20	Having recycle bins at my house that are picked up weekly.
YES	\$2-\$5	Conservation. It also depends on how many different bins. E.g.. 1)paper, 2)plastic, 3)trash, 4)metal, 5) ?
YES	\$2-\$5	If I don't have to take it to the recycling bins
		There needs to be improvement on collection of recyclables. Learn from other communities. To improve, you have to have a service to do a pick-up at every house. Citizens could use a 10 or 20 gallon recycle tote and bag up plastics, cardboard, cans, glass, and paper. Everything is bagged separate. Make recycling easier. No not come up with ideas like no lids. Make it easy for people to do. If you are demanding people won't do it.
YES	\$0-\$2	

YES	\$0-\$2	
NO		\$0
NO		0
No		0 Recycle newspaper & magazines
YES	\$5-\$10	Curbside recycling or a bin in the Alley
NO		\$0 Nothing unless free. Now I can just drop in the collect boxes and places. The question is: Does it actually work? Is recycling cost effective? Does it provide new goods-Less expensively than using
No		0 nature resources?
NO		\$0 Nothing, already pay too much for electricity
NO		\$0 Nothing you can do.
NO		\$0 I will only pay if forced. I already pay enough.
NO		\$0 Nothing. I can't afford it.
YES	\$0-\$2	If they take all and sort at facility.
YES	\$2-\$5	
NO	\$0-\$2	Lower the fees quit spending money
YES	\$10-\$20	I believe it's a great service
NO	\$0-\$2	Nothing
YES	\$5-\$10	If it was pick up at my house
NO		\$0 Reduction in fees already charged. Should be free or no more than \$1.00
		<p>The recycling survey we received with our utility bill is so vague it is difficult to answer the questions with any degree of confidence. It is not clear who or what entity would be the responsible party for the recycling. We are in favor of recycling when it is done by a "private enterprise". We are not in any way shape or form in favor of Government entities, i.e.; City of Alliance, running or furnishing any labor, equipment, supervision, material and such for a recycling operation. The challenges associated with recycling are many. Having a small population and being located in a remote area, as is Alliance, only adds to the challenges. KAB operates on a shoestring and still requires a subsidy in order to continue operations. The city should be very cautious about any subsidy for KAB. We would very much like to see KAB continue however; Alliance has families that are hard pressed to "make ends meet". An additional charge that might be considered nominal to many can be a burden to others. A subsidy has a way of creeping and growing over time. Should the City of Alliance consider a subsidy, the dollar amount needs to be capped and have a specific end date. As much as we should like to see recycling continue, a viable</p>

NO		\$0 Reduce the price you already charge for RF
NO		\$0 Nothing. Already do our own recycling, not going to pay city to do it Commercial location - pay separate trash pickup fees to H&H. Don't really want to pay more for recycling since it wont reduce my current trash bills

YES	\$5-\$10	Having my recyclable material picked up at my home. Having designated bins for just recyclable materials
YES	\$2-\$5	
No		I enjoy the recycling we have KAB and I use it. It cuts my garbage in half, I put my container out at most twice per month. So if we support what we have we save the city money every week.
NO		0
YES	\$5-\$10	I believe its good and necessary
YES	\$0-\$2	KAB does good work and should get more financial assistance

Look at dumpsters in alley west of black hills between 5th and 6th street terrible! There are sill signs, sandbags, and pieces of metal from the "Road Closed" signs in the alley and on the corner of 6th and black hills by kiddie kampus. Lets get things cleaned up and working correctly before we start new projects!
NO		\$0 If I actually had more items weekly to recycle imp a single person not a family and imp rarely home so this makes zero sense to me to pay more for something I would never use!
